The bones hunt

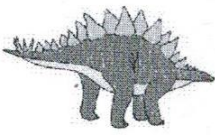

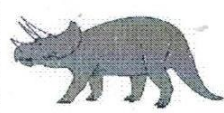

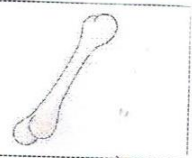

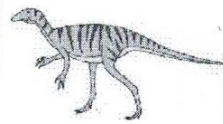

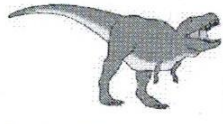

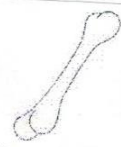

4. Play a game!

Play a game with a partner. Ask a friend or someone in your family. Each person needs one copy of this page.

1. Cut out the bones and the dinosaurs.
2. Stick the bones and dinosaurs in different squares. Do not look at your partner's page!
3. Try to find your partner's bones. Take turns to ask each other, 'Is there a bone in square (A1)?'
4. If you find a dinosaur, you lose one life. You only have three lives!
5. Can you find all of your partner's bones before you lose all your lives? Good luck!
